EduwAive Foundation

raise INITIATIVE

APPRENTICESHIP OPPORTUNITY 2019

"Be the change you wish to see in the world."

We at Eduwaive Foundation abide by the above saying.

Company Name

Eduwaive Foundation is an AI and data science company with the focus on using ML, Data Science, Artificial Intelligence, Cloud computing, Blockchain, IoT and other related technologies for socially good sectors such as education, agriculture, healthcare, smart city and hence, contribute to UNDP sustainable development goals.

Our Vision

Our mission is to channelize the youth, especially in colleges and universities towards research, jobs and entrepreneurship opportunities in socially good sectors by upskilling with an integrated STEM and humanities education through live projects. We aim at making practical higher education accessible, inclusive and affordable which will enable our youth towards the opportunities of the fourth industrial revolution and help them solve socio-economic problems of our country.

Our products and services:-

1. Eduwaive Learning

It is the core of **Eduwaive Foundation**, with the objective of providing affordable, practical, high-quality education to channelize youth via workshops, webinars, hackathons, and blogging.

2. Eduwaive Labs

It is the research wing to engage the community members, students, faculty in live projects for a deeper understanding of AI and its applications in social good sectors where currently we are focussing on Education and Agriculture.

3. Eduwaive Consultancy

It is **Eduwaive Foundation**'s industry outreach initiatives where we engage with various data companies to help them in streamlining their AI journey by workshops, problem selection, implementation and building their machine learning and cloud computing roadmaps.

Our Team

Eduwaive Foundation, in term of its team, has more than 100 years of experience in the industry and is expanding rapidly. We are a team of 15 professionals and a vibrant leadership team comprising of :-

Puneet Jindal | **Pulin Pathneja** | **Dr. Anand Medepalli** | **Anand Jha**

Jaincndra Kumar | **Sadanand Sutar** | **Vaibhav Salu** | **Sudarson Pratihar**

Mathangi Sri | **Dr. Sachin Garg** | **Janu Verma** | **Dr. Neeraj Bhanot**

Our team consists of people from various universities and colleges like **PEC, Thapar, Punjabi University, Punjab University, Chitkara, IIT, NIT** etc. We plan on offering more stipend based internships to students who we feel are well suited for our initiative and hence, can help us further our cause.

RAISE PROGRAM

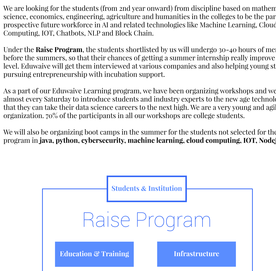
Raise Program is the initiative by **Eduwaive Foundation** to reduce the gap between Industry and Academia and to help the youth to develop a better understanding of what they are learning in the colleges by actually working on live projects. We believe that the best learning happens in the field.

We are looking for the students (from 2nd year onward) from discipline based on mathematics, science, economics, engineering, agriculture and humanities in the colleges to be the part of our prospective future workforce in AI and related technologies like Machine Learning, Cloud Computing, IOT, Chatbots, NLP and Block Chain.

Under the **Raise Program**, the students shortlisted by us will undergo 10-40 hours of mentorship before the summers, so that their chances of getting a summer internship really improve to the next level. Eduwaive will get them interviewed at various companies and also helping young startups for pursuing entrepreneurship with incubation support.

As a part of our Eduwaive Learning program, we have been organizing workshops and webinars almost every Saturday to introduce students and industry experts to the new age technologies so that they can take their data science careers to the next high. We are a very young and agile organization. 70% of the participants in all our workshops are college students.

We will also be organizing boot camps in the summer for the students not selected for the raise program in **java, python, cybersecurity, machine learning, cloud computing, IOT, NodeJS.**



Our Hiring Process

Our selection process is one of the most innovative ones.

Stage 1
Phone screening in case of remote, or Pre-placement talk in case of campus recruitment

Stage 2
Assignment of 3-4 weeks will be given to the candidate, and they are invited to visit Eduwaive office and meet the team in person for more engaged problem-solving.

Stage 3
Technical Interview of the candidates along with the presentation of the solution they arrive at for the assignment mentioned above.

Stage 4
HR interview and onboarding.

Core Values that we live at Eduwaive Foundation:-

- Leading innovation
- Ownership
- Value driven
- Result oriented
- Openness
- Learning attitude

Key Skills (we are looking for)

- Knack for problem-solving
- Able to work independently and as a team player
- Excellent verbal communication skills
- Excellent active listening skills
- Positive and enthusiastic attitude
- Handles failures positively
- Customer focus and result oriented approach

What we are offering

3, 6 and 12 months internship with Eduwaive Foundation.

At **Eduwaive Foundation**, the student will be working on cutting-edge tools and techniques to solve real-world problems in the technology domain. Projects can include:

- Chatbots
- Social Media and Customer Analytics
- AI based Recommendation engine
- Image Recognition problems
- Business Intelligence products with Machine Learning and Analytics
- IOT and video analytics
- Drone-based solutions for agriculture

Interns will be working end-to-end on every aspect of the Machine Learning solution, right from problem understanding and modeling to optimizing for accuracy and performance, along with showcasing leadership skills.

Time commitment:

1 day per week at our office premises/ communicated location.
At least 2 hours per day on weekdays and 4 hours on Saturday (this is subject to changes). The output of each day should be communicated regularly.
Should be available full time in summer (2 months).

Workflow:

Once students are selected they would be called for the onboarding process at our office premises (introduction, policies, NDA etc). Students will have to submit NOC from their college.
They would be assigned a project and an industry mentor by Eduwaive Foundation.
The webinars and workshops to introduce the students to the nextgen concepts will take place every other Saturday.

Who can apply:

If you,
- Have relevant skills and interests
- Are still in college and want to experience practical internship knowledge.

Perks:

- Certificate, Letter of recommendation
- Pre-placement offer (PPO-intern's performance will be evaluated during internship)
- Informal dress code
- 5 days a week, with workshops every other Saturday
- Can participate in weekly employee engagement activities

Documents Required:

Updated Resume with 2 Recent photographs
All Academics Certificates (10th, 12th, Graduation or Post Graduation)
Must have PAN Number, Aadhar Card or Acknowledgement of same
Canceled cheque

Note:

The organization can choose to remove anyone in case of misconduct and not adhering to the guidelines mentioned in the proposal.
